

OUR MOTTO....

EDUCATION

Our purpose is to provide educational opportunities for the community, local schools, and all of our guests through living history experiences.

PRESERVATION

We strive to preserve the legacy of the Second World War and all of those who participated in it. It is important to draw lessons from the time period and, without the stories of ALL participants, the impact of the war is lost.

HONOR

We honor veterans of the Second World War, their families, their stories, and all they sacrificed.
